

YOU ARE STEALTH

StealthStation™ ENT is named in honor of you and your colleagues who perform image-guided procedures with exceptional skill.

Stealth is how you work. You thoroughly evaluate, target, then accurately navigate to treat your patient.

Stealth is your commitment to your patients. You leverage the latest technology so you can perform a thorough, efficient procedure.

Stealth is the vision you bring to every surgery. In the fight against disease, arm yourself with the very best.

THE PERSPECTIVE YOU NEED TO SUPPORT THE OUTCOMES YOU WANT.

YOU'RE AT THE FOREFRONT OF ENT SURGERY. YOU ARE STEALTH.

YOU ARE STEALTH

StealthStation™ ENT
Navigation System

Rx only. Refer to product instruction manual/package insert for instructions, warnings, precautions and contraindications.

EXPANDING WHAT'S POSSIBLE

The StealthStation™ ENT is a navigation system for your most basic to your most complex cases. It is built on decades of scientific, clinical and engineering research. StealthStation™ ENT offers electromagnetic technology that expands what was previously possible with image-guided surgery so you can [see more, do more.](#)

STEALTH IS... IMPROVING WORKFLOW EFFICIENCY. SIGNIFICANTLY.

The elegantly designed, flexible StealthStation ENT streamlines the OR so you can maintain focus.

- A flat, under-the-head emitter is easy to position and out of the way during the surgery.
- With an optional side-mount emitter, the system enables more procedure flexibility.
- Additional EM coils increase surgical volume and create a large EM field.

STEALTH IS... NAVIGATING CRITICAL AREAS. CONFIDENTLY.

Imagine registration, visualization and modeling features that provide confirmation and confidence previously unavailable in an ENT navigation platform.

- Patient registration combines registration methods and provides numerical and visual accuracy feedback.
- Virtual endoscopy provides a simulated 3D endoscopic view of the sinuses to visualize anatomy, pathology and preoperative plans inaccessible with a traditional endoscope.
- 3D modeling provides enriched visualization of the patient's anatomy and pathology.

Together, we help
improve the lives of

>100,000
PEOPLE PER YEAR

through
ENT NAVIGATION

STEALTH IS... PARTNERING WITH A PROVEN LEADER. SUCCESSFULLY.

Medtronic has been your trusted partner for image-guided ENT procedures for 20 years, and we're just getting started.

- Only Medtronic offers the complete package: longstanding dedication, innovative technology and reliable support.
- You can count on us for 24-hour technical assistance and the industry's best turnaround time for repairs.
